

# BAMBOO ♦ Care & Use

Delfin Bamboo products are manufactured from mature, panda-friendly Moso Bamboo. Cool and stylish, these delfingreen items are protected with a durable FDA and CEN compliant lacquer coating. Extremely strong, eco-friendly, and beautiful, what more could you ask for?

## GENERAL

### Do

- Avoid prolonged contact with foods such as berries and coffee grounds, as they may stain.
- Avoid exposure to excessive heat or extreme dampness. Excessive dryness or humidity can cause cracking.
- Wash with warm soapy water, rinse and wipe dry immediately with a clean cloth and store in a cool dry area.
- Apply food grade Mineral Oil regularly to prevent the wood from drying out. To restore the surface, use fine sandpaper and apply mineral oil.

### Don't

- Place bamboo wares in the dishwasher.
- Use scouring pads, abrasive cleaners, harsh detergents, vinyl solvents or substances containing aromatic hydrocarbons.

### Note

Using bleach to sanitize may change the appearance of the product.
